1999.5-2003 FORD DIESEL TRUCKS
V8-7.3L (TD)

**37HP &
94lbs. x ft.
torque***

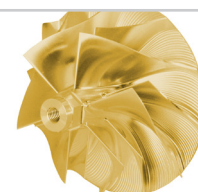

THIS PART IS FOR RACE USE ONLY

This is a "Race Only" Product used solely for Competition. Any other use, including street, highway, and recreational off-road use, could be in violation of local, state and federal laws.

FEATURES & BENEFITS

Billet Wheel

The compressor features a gold anodized 6/12 bladed billet aluminum compressor wheel that is lighter and stronger than the stock cast wheel to help provide quicker "spool-up" and higher air flow than the stock turbo.

Billet Wastegate

A CNC-machined, black anodized billet aluminum wastegate actuator comes preset but is adjustable and is capable of higher boost pressures with an appropriate tuner.

Direct Replacement

All connections to the vehicle are compatible with the OE geometry. Additional fueling is not required for improved performance over OE.

P/N	Jobber/Map	Feature
46-60072	\$1495.00	86mm
46-60076	\$149.00	High Flow Adapter

Price Level "d"
