

832NB

Technical drawing of a mechanical assembly, likely a fuel system component, showing various parts and their connections. The assembly includes:

- 30812NB**: A long, straight pipe section on the left.
- 30813NB**: A long, straight pipe section in the middle.
- 6185**: A rectangular component, possibly a valve or filter, located between the two main pipe sections.
- 30815**: A curved pipe section on the right.
- 30817**: A curved pipe section at the far right end.
- AS400**: Four small, circular components (likely valves or sensors) are shown, each with a corresponding label. Two are located above the main assembly, and two are located below it.
- CH47**: A small, rectangular component located below the middle pipe section.

The drawing uses standard engineering notation, with part numbers and names clearly labeled for identification.

- 2- 7/16 x 2 1/2" FT Bolt
2- 7/16 Flanged Nut
