THREE YEAR WARRANTY

TruXedo, Inc. warrants that all new, unused products are free from defects in material and workmanship. This Three Year Limited Warranty is effective if the product is properly installed and used for the purpose intended. It applies to the original buyer only. TruXedo's obligation under this Warranty is limited to repairing, or at its option, replacing any part that is returned, transportation prepaid, to TruXedo, Inc., Yankton, South Dakota, if the product is, in our judgment, defective. All materials must be accompanied by an RMA (Returned Material Authorization) number requested by and authorized in advance of returning the materials. TruXedo, Inc. shall not be liable or responsible to supply or pay labor to replace any part found defective, nor shall it be liable for any damages of any kind or nature to person, product, or property.

There are no Warranties for used products or products that have been repaired, altered, modified, subjected to misuse, negligence, accident or ordinary wear and tear. Warranty registration must be on file and/or proof of original purchase (detailed and dated receipt) required for warranty to be valid. Register warranty online at www.truxedo.com

SAFETY INSTRUCTIONS

1. Do not place objects on or against cover or framework.
2. Do not tie cargo to truck bed cover framework.
3. **Never** allow children or pets to occupy pickup box while cover is closed.
4. Cover is not airtight. Special care is required to keep cargo clean and dry.
5. Fabric cover won't prevent theft of contents inside truck box.
6. Cover must be rolled fully open and secured with retainer straps when towing vehicle backwards.
7. **DO NOT** stow rolled cover against cab window.
8. **DO NOT ATTEMPT TO DRIVE WITH THE COVER IN THE PARTIALLY OPEN POSITION!**
9. **A FULLY ROLLED OPEN COVER MUST ALWAYS BE SECURED WITH RETAINER STRAPS.**
10. **DO NOT** operate vehicle with objects on top of the cover.

OWNER/USER RESPONSIBILITIES

It is the responsibility of the owner/user to read this manual and comply with the operating procedures. The owner/user is also responsible for inspecting the TruXedo® cover, and for having parts repaired or replaced when worn or damaged.

Failure to follow safety instructions and warning labels could result in failure of your cover system and/or personal injury.

MESSAGES TO INSTALLER

- Always wear safety glasses and/or other necessary protective equipment when installing your TruXedo®.
- These instructions are complete for most pickup models. Additional instructions are included, if required for your truck. Please read entire manual before installing your TruXedo®.

IMPORTANT OPERATING TIPS

- Truck bed cover must be free of foreign material including snow and ice before rolling cover open or closed.
- It is recommended to operate vehicle with cover rolled closed and latched for optimal fuel economy.
- Prolonged cold weather will make cover fabric stiff. Move vehicle with cover unrolled and latched into sun or indoors to warm the top surface.
- If cover has been stored in a rolled up state for a long period of time it may take few minutes for the cover to lay flat. The fabric material needs to relax to a flat state, this is normal.
- **DO NOT** roll cover into rear cab window. **DO NOT** stow against cab.

COVER CARE AND MAINTENANCE

1. Vinyl cover can be hand washed with mild soap and water or cleaned in a car wash. Thoroughly rinse cover to remove any soap residue. **Never use vinyl conditioners that contain silicon, petroleum, or citrus based products on your truck bed cover as they may crack and shrink the vinyl top surface.**
2. It is recommended that you periodically check that the cover is securely attached to your truck bed. Inspect the clamps and front header guide slides to ensure they were properly installed and have not come loose during operation.
3. It is recommended that you periodically inspect and service the rear latch closures. Clean away any excess dirt or grime and lubricate with silicone spray. Ensure the latches move freely in and out to properly engage the side rail and provide performance with optimal security. Be careful not to overspray the cover.

IMPORTANT INSTALLATION TIPS

- Modification of accessories such as bed liners (including spray in liners) may be necessary allowing the truck bed cover side rails to fit properly between the front bulkhead and tailgate of the truck bed.
- When placing the rolled up cover assembly on the side rails and installing it to the side rails (see step 7) the weight of the cover assembly may tilt or flex the rails downward. Simply push up on the rail when securing the header guides to the rail (see step 8).
- After the initial installation leave cover closed and latched for a 24 hour period. This will insure that the fabric has taken a complete set to the metal substrate.

ADDITIONAL IMPORTANT OPERATING TIPS

INCORRECT METHOD Of How To Open Cover To The Front.

****Do not slide a partially opened cover across the cover's surface.****

****Do not slide cargo across the cover's surface.****

CORRECT METHOD Of How To Open Cover To The Front.

ADDITIONAL IMPORTANT SAFETY TIPS

CAUTION HIGH TEMPERATURE

TOP SURFACE AND BOTTOM SURFACE CAN BECOME EXTREMELY HOT TO TOUCH WHEN EXPOSED TO BRIGHT SUN AND OR HEAT.

NEVER ALLOW CHILDREN OR PETS TO SIT ON COVER WHEN CLOSED OR ROLLED TO THE CAB.

CAUTION

ROLL COVER TIGHT AND SECURE BOTH RETAINER STRAPS.

DO NOT STOW COVER AGAINST CAB WINDOW.

CAUTION

Before driving with cover open, **BOTH STRAPS MUST BE SECURED TO RETAINING LOOPS**. Failure to do so could cause accidental release of the cover, resulting in personal injury or property damage.

Components

Tools Required

1/2"

Correct

E

Read manual carefully before installing truck bed cover

INSTALLATION

1:

Clean area before install.

2:

Position rail "B" on driver side of truck box centered between tailgate and cab.

3:

REAR (Tailgate)

Align rail so foam is compressed equally on both sides.

Compress foam spacer approximately 50%.

FRONT (Cab)

ATTENTION RAIL SITS ON TOP OF TRUCK'S BED RAIL.

Truck bed rail

Rail Sits on Top of Bed Rail

4:

To ensure cover is square for proper operation ensure holes and notches on the driver and passenger rails are lined up across from each other.

5:

LEVEL

ADJUSTABLE CLAMP

SEE IMPORTANT INSTALLATION TIPS

WARNING

Tighten clamps securely on side rails before driving vehicle.

It is recommended that rails be mounted level. Position clamps high to start and reposition lower, as needed, to achieve rails that are mounted level.

6: Repeat steps 2-5 on passenger side for item C. When finished proceed to step 7.

7:

Note: The rail may need to be forced upward slightly to allow the screw head to drop in the slot.

8:

Note: The rail may need to be forced upward slightly to allow the header guides to slide.

Note: The rail may need to be forced upward slightly to allow the header guides to slide.

Secure rolled cover to side rails. Slide header guides under the rail until CLICK is sounded.

9:

Unroll cover to the tailgate.

CAUTION

PINCH POINTS CAN CAUSE SERIOUS PERSONAL INJURY

Cable latch Release

CAUTION HIGH TEMPERATURE
IN BRIGHT SUN AND OR HEAT

ATTENTION!

After the initial installation leave cover closed and latched for a 24 hour period. This will insure that the fabric has taken a complete set to the metal substrate.

14:

CAUTION

ROLL COVER TIGHT AND SECURE BOTH RETAINER STRAPS. **DO NOT** STOW COVER AGAINST CAB WINDOW.

CAUTION

Before driving with cover open, **BOTH STRAPS MUST BE SECURED TO RETAINING LOOPS**. Failure to do so could cause accidental release of the cover, resulting in personal injury or property damage.

15: To Release Strap Push Tab Up.

NOTICE: Ice buildup within hinge section can occur if cover is stowed in open position. To prevent potential damage, close cover during winter precipitation.

TROUBLESHOOTING

COVER ASSEMBLY WILL NOT ATTACH TO SIDE RAILS DURING INSTALLATION:

1. Check side rails to make sure they are level (See Step 5, clamp installation).
2. The rolled up cover is heavy which may be flexing the rails downward. Push front of rail up slightly to allow the screw head to fall in the slot and the header guide to slide freely into the secured location (See notes in steps 5, 6, and 7).
3. If rear header doesn't latch correctly check side rail installation Step 3.

HEADER WILL NOT LATCH:

1. Check side rails to make sure they are level (See Step 5, clamp installation).
2. Make sure the rear header seal is not caught between side rail & rear header.
3. If rear header doesn't latch correctly check side rail installation Step 3.
4. Check to make sure side rails are both equally spaced front to rear (See steps 3 & 4).
5. Make sure both latches are functioning properly. Clean any debris that may be impeding latches, see COVER CARE AND MAINTENANCE on page 1.
6. Close cover first then tailgate (see alternate closing method in step 11).

COVER IS HARD TO ROLL OPEN OR CLOSED:

1. Truck bed cover **MUST** be free of foreign material including snow and ice before rolling cover.
2. Prolong cold weather will make cover fabric stiff. Move cover into sun or indoors to warm the top surface.
3. If cover has been stored in the rolled up state for a long period of time it may take few minutes for the cover to lay flat. The fabric material needs to relax to a flat state, this is normal.
