

NEW HD SERIES SINGLE DISC FOR DODGE TURBO DIESEL PICKUPS

→

Our HD series clutch disc features a 13" double wide, high torque clutch facings with heavy duty 6 spring dampening system.

This clutch is designed for the moderately increased horsepower trucks 425 hp 900 torque. Offering a very smooth engagement with light pedal effort. The perfect towing clutch.

←

The pressure plate we chose to use is straight from our street series dual disc clutch with the extra wide casting and heavy duty design.
