

**75
GALLON**

It's Like Money in the Bank.

Invest in an extra 75 gallons of onboard fuel to save you both time and money!

Having an extra 75 gallons of onboard fuel gives you invaluable peace-of-mind on the road. Our 75-gallon in-bed auxiliary tank holds enough fuel to dramatically impact your driving experience, and fits in short and long-bed full size pickups.

The 75-gallon fuel tank is manufactured from 14-gauge ReliaSteel[®], high-yield U.S. aluminized steel, and is baffled on all four sides for extra strength and to reduce fuel slosh. It comes with all parts needed for installation.

Like all our auxiliary fuel tank systems, it is computer-controlled by our TRAX 4[™] operating system for worry-free fuel transfers. Based on the capacity of your pickup's main fuel tank and the capacity of the Transfer Flow auxiliary fuel tank, the TRAX 4[™] system will transfer fuel at pre-determined levels from the auxiliary tank to the main tank while the vehicle is in operation.

Want to know the status of your onboard fuel systems? Use our TRAX 4[™] app to monitor your pickup's fuel capacity on your smart phone. An optional fuel level monitor LCD is also available!

**SHORT AND
LONG BED**

Fits: 2008–2020 Ford, GM/Chevy, Ram
Fuel: Diesel
Ship Weight: 182 lb.
Dimensions: 60 3/4" L × 21" W × 22 1/2" H
Part Number: 080-01-16755
Textured Coating Part Number: 080-BL-16755

FEATURES AND BENEFITS

- For drivers who want to maximize their fuel capacity and driving range
- Won't interfere with standard 5th wheel hitch
- Robot-welded seams provide extraordinary strength, unlike rotationally molded plastic tanks or cheaper steel brands
- Includes all components needed for installation
- TRAX 4[™] computer-controlled automatic fuel transfers for worry-free operation
- Built from ReliaSteel[®], high-yield U.S. aluminized steel powder coated black
- Baffled to prevent fuel sloshing
- 6 year, unlimited mile warranty
- Made in the USA
- **Optional upgrade:** Textured coating, Fuel level monitor LCD
